Please list them (if any) _____

2.2 Have you successfully sold your technology to customers in this target market? Yes No Don't know
Please indicate number of sales (if any) _____

2.3 Are your customers generally satisfied with your technology? Yes No Don't know

2.4 Are there things that need to be done to improve market acceptance of your technology? Yes No Don't know
Please list them (if any) _____

Other Comments:

3. Technology Performance (vendor perspective)

3.1 Have you defined the performance advantages of your technology? Yes No Don't know

3.2 How many distinct performance advantages can you define for your technology? None
1-3
4-6
More than 6
Don't know

Please list these advantages (if any) _____

3.3 Are these performance advantages measureable? Yes No Don't know

If yes, please list the measureable performance advantages

3.4 Are there potential environmental or other impacts associated with the use of your technology? Yes No Don't know

Please list these impacts (if any) _____

3.5 Does your technology perform better than minimum standards?

Yes No Don't know

Other Comments:

4. Technology Performance Data (vendor perspective)

4.1 Do you have data on the performance of your technology?

Yes No Don't know

4.2 Was the performance data prepared by an independent testing organization?

Yes No Don't know

4.3 Is the performance testing organization accredited?

Yes No Don't know

Please list these accreditations (if any) _____

4.4 Was the performance testing done in accordance with existing international standards?

Yes No Don't know

If yes, please list these standards _____

Other Comments:

5. Performance Verification and Reporting (vendor perspective)

5.1 Has the performance test data been reviewed by an independent verification organization?

Yes No Don't know

5.2 Is the performance verification organization accredited or part of a recognized national or international program?

Yes No Don't know

Please list these accreditations and/or programs (if any) _____

5.3 Is there a report available on the performance testing and verification of your technology?

Yes No Don't know

If yes, please indicate how this can be obtained _____

5.4 Is the performance of your technology posted on the internet?

Yes No Don't know

If yes, please indicate where the performance of your technology is posted _____
